BUILDING A BRIGHTER FUTURE *for Wyoming*

From a cattle rancher to a wind technician to a local historian, people all across Wyoming see a future bright with promise and potential.

Rocky Mountain Power is investing in the state's infrastructure, creating jobs and helping to build strong communities. From adding new wind farms to constructing hundreds of miles of transmission lines, these investments will help Wyoming play a major role in shaping the nation's energy future.

PREFACE

This directory provides information on each of Wyoming's incorporated communities, including a current listing of elected officials and key personnel. In addition, the directory includes a listing of Wyoming's Congressional and State Elected Officials, State Agencies, Wyoming County Commissioners, and a listing of WAM's Sponsors and Supporters.

Elections are held in May and November, and the officials listed here are current as of January 2023. As election dates vary, please know the listing of officials and staff will change during the course of the year. We appreciate the assistance of our members who went to great lengths to assure the information provided in this directory is correct.

ABOUT WAM

After operating in several organizational forms since 1928, the Wyoming Association of Municipalities (WAM) was incorporated in 1967 as a non-profit, non-partisan organization representing and serving Wyoming's cities and towns. Every Wyoming citizen relies on quality services and facilities provided by cities and towns. This is especially true as 69 percent of Wyoming's population lives in a municipality.

WAM's mission is to advocate for cities' and towns' common interest and provide educational opportunities for WAM members.

WAM is governed by a Board of Directors composed of mayors, council members, and representatives from Great Open Spaces City Management Association (GOSCMA), Wyoming Association of Municipal Clerks and Treasurers (WAMCAT) and Leadership Training Services Committee (LTSC).

WAM OBJECTIVES:

- ADVOCATE for Wyoming's cities' and towns' municipal interests regarding both state and federal legislation.
- Provide TRAINING opportunities to municipal officials and staff through the Local Government Leadership Program, which assists Wyoming communities with fundamental training.
- COMMUNICATE all things related to municipal governance, training, outreach and advocacy. Contact WAM to discover all the ways it keeps its members and stakeholders informed.

811 is the phone number you call before digging to protect yourself and others from unintentionally hitting underground utility lines. There are millions of miles of buried utilities beneath the surface of the earth that are vital to everyday living like water, electricity and natural gas.

811 is the federally designated **call before you dig** number that helps homeowners and professionals avoid damaging these vital utilities. When you make the free call to 811 a few days before you dig, you'll help prevent unintended consequences such as injury to you or your family, damage to your property, utility service outages to the entire neighborhood and potential fines and repair costs.

Submit your request on-line at
www.onecallofwyoming.com
OR
Dial 811 at least 2 (two) business days
before you intend to dig. It's Fast,
It's Free and It's the Law!

Our name spells out our mission: a bridge to a cleaner energy future. That bridge safely connects millions of people around the world to the energy they rely on every day, fueling quality of life. Throughout our history, and especially today, we are looking beyond the horizon to invest in and build modern infrastructure, resilient communities and reliable energy. We move about 30% of the oil produced in North America and we transport nearly 20% of the natural gas consumed in the U.S.

The Wyoming Government Investment Fund ("WGIF" for the "Fund") was created July 1, 1996 to provide cash-management investment designed exclusively for Wyoming public entities. In addition, the Fund provides municipal investors with a full range of tools designed to meet their cash flow and investment needs, including comprehensive investment management services, education and support. WGIF is sponsored by the Wyoming School Board Association ("WSBA") and the Wyoming Association of Municipalities ("WAM").

Wyoming has one of the highest cremation rates in North America at 74.9%. That number is expected to hit 82.2% by 2025.

Among those who choose cremation, the vast majority are looking for above-ground interment options, such as a columbarium.

- Nelson Granite is one of the largest granite quarriers and columbarium manufacturers in North America.
- 100% granite = little-to-no maintenance
- A municipally-driven columbarium program = easy to oversee and all revenue generated is reinvested in the cemetery

**Let us know how we can help get a
columbarium in your cemetery**
